What's in the Release Notes

The release notes cover the following topics:

- [What's New in VMware vRealize Operations Management Pack for VMware Site Recovery Manager 8.2.1.2](#)
- [Installation and Configuration](#)

What's New in VMware vRealize Operations Management Pack for VMware Site Recovery Manager 8.2.1.2

- The VMware vRealize Operations Management Pack for VMware Site Recovery Manager 8.2.1.2 adds support for vRealize Operations Manager 8.3.

Installation and Configuration

The VMware vRealize Operations Management Pack for Site Recovery Manager 8.2.1.2 software is distributed as PAK file. You install and configure the management pack by using the vRealize Operations Manager interface.

1. Log in to vRealize Operations Manager.
2. Select **Administration** > **Solutions** > **Repository** in the left pane.
3. Click **Add a Management Pack**.
4. Navigate to the `VMware-srm-vrops-mp-8.2.1-<build number>.pak` file and click **Upload**. When the PAK file is uploaded, click **Next**.
5. Read and agree to the end-user license agreement. Click **Next** to install the management pack.
6. Review the installation progress, and click **Finish** when the installation completes.

After the installation you must configure the VMware vRealize Operations Management Pack for Site Recovery Manager 8.2.1.2 so that vRealize Operation Manager can collect data from the target system. The minimum role required to collect data is **Ready-only**. For more information on roles and permissions, see [Site Recovery Manager Privileges, Roles, and Permissions](#) and [vCenter Server System Roles](#).

1. Select **Administration** > **Solutions** > **Configuration** in the left pane.
2. On the **Configuration** tab, select Srm Adapter, and click **Configure** on the toolbar.
3. Enter the required information in the Manage Solutions wizard and click **Save Settings**.
