VMware vRealize Operations Management Pack for VMware Site Recovery Manager 8.4.0.3 is a minor product patch release that provides bug fixes. The content of the [VMware vRealize Operations Management Pack for VMware Site Recovery Manager 8.4 Release Notes](#) and the [VMware vRealize Operations Management Pack for VMware Site Recovery Manager 8.4.0.2 Release Notes](#) applies to this version as well.

What's in the Release Notes

The release notes cover the following topics:

- [What's New VMware vRealize Operations Management Pack for VMware Site Recovery Manager 8.4.0.3](#)
- [Installation and Configuration](#)
- [Resolved Issues](#)

What's New VMware vRealize Operations Management Pack for VMware Site Recovery Manager 8.4.0.3

The vRealize Operations Management Pack for VMware Site Recovery Manager 8.4.0.3 provides bug fixes.

Installation and Configuration

The VMware vRealize Operations Management Pack for Site Recovery Manager 8.4.0.3 software is distributed as PAK file. You install and configure the management pack by using the vRealize Operations Manager interface.

1. Log in to vRealize Operations Manager.
2. Select **Administration** > **Solutions** > **Repository** in the left pane.
3. Click **Add a Management Pack**.
4. Navigate to the `VMware-srm-vrops-mp-8.4-<build number>.pak` file and click **Upload**. When the PAK file is uploaded, click **Next**.
5. Read and agree to the end-user license agreement. Click **Next** to install the management pack.
6. Review the installation progress, and click **Finish** when the installation completes.

After the installation you must configure the VMware vRealize Operations Management Pack for Site Recovery Manager 8.4.0.3 so that vRealize Operation Manager can collect data from the target system. The minimum role required to collect data is **Ready-only**. For more information on roles and permissions, see [Site Recovery Manager Privileges, Roles, and Permissions](#) and [vCenter Server System Roles](#).

1. Select **Administration** > **Solutions** > **Other Accounts**.
2. Click **Add account**.
3. Select **Site Recovery Manager Adapter**.
4. Enter the required information and click **Add**.

Note: User name and password are case-sensitive.

Resolved Issues

- **NEW** Site Recovery Manager site data collection does not work

After upgrading to the VMware vRealize Operations Management Pack for VMware Site Recovery Manager 8.4.0.2, the management pack no longer collects Site Recovery Manager site data and the Site Recovery Manager object is not showing on the SDDC health management dashboard.

This issue is fixed in VMware vRealize Operations Management Pack for VMware Site Recovery Manager 8.4.0.3.
