What's New

This release of NSX Cloud contains bug-fixes and enhancements.

See [NSX Cloud Release Notes](#) for a list of known and resolved issues.

Enhancements (Feb 6, 2018)

- **Support for additional operating systems.** NSX Cloud now supports the following operating systems:
 - Ubuntu 14.04.05, 16.04
 - RHEL 7.2, 7.3, 7.4
 - OLES 7.2, 7.3, 7.4
 - CentOS 7.2, 7.3, 7.4
 - Windows Server 2012
- **All your custom AWS tags discovered by NSX.** NSX Cloud displays the AWS tags for your NSX-managed workload VMs. You can now use your existing AWS tags to manage microsegmentation and other workflows.
- **Support for Port Mirroring, Hitless Failover, and NSX Edge Firewall (overlay).** Several NSX-T features are fully supported in this release.
- **Support to enable DNS for NSX-managed VMs in the non-overlay mode.** You can now specify a DNS server for VMs in the non-overlay (underlay) mode.

Enhancements (Dec 8, 2017)

- **Contextually relevant help topics displayed in the sidebar** Click the help icon in the navigation bar to view help topics relevant to your current task.
- **Auto-logout** If you are inactive for five minutes, you are logged out of the system. A warning is presented at four minutes. This enhances the system's security.
- **Search feature in NSX Manager** You can use the same search feature in NSX Manager that is available in the on-premise version.

- **New icons:** New icons represent the possible states of workload VMs and the Public Cloud Gateway (PCG).

Enhancements (Oct 17, 2017)

- **Chat support:** Engage with VMware Technical Support via instant chat and get answers to your questions in real-time.
- **Easy access to the Tech Support Bundle:** Invoke the tech support bundle from CSM.
- **Org Switching:** Seamlessly switch between organizations you are a part of without having to log back in.
- **New CloudFormation template for compute VPC creation:** Use the CloudFormation template from the NSX Cloud Dashboard to create a compute VPC with all the required components and settings for NSX Cloud.
