About vRealize Log Insight Developer Resources

1

vRealize Log Insight Developer Resources provides information about the vRealize Log Insight API.

Intended Audience

This information is intended for anyone who wants to use the vRealize Log Insight Ingestion API. You must be familiar with REST concepts and with the JSON serialization format.

The vRealize Log Insight REST API

The REST API provides programmatic access to vRealize Log Insight and the data it collects.

You can use the API to insert events into the vRealize Log Insight datastore, to query for events, to change product configuration and for product authentication with VMware Identity Manager and authorization. You can also use the API to install or upgrade vRealize Log Insight.

See the vRealize Log Insight API reference at <https://www.vmware.com/go/loginsight/api>.
