Introduction

1

vSphere Replication 8.4.0.6 | 30 MAR 2023 | Build 21310200 | [Download](#)

Check for additions and updates to these release notes.

About This Release

2

VMware vSphere Replication 8.4.0.6 is a minor product patch release that provides bug fixes. The content of the [VMware vSphere Replication 8.4 Release Notes](#) applies to this version as well.

What's New

3

- Updated Spring Framework to version 5.2.20.
- The vSphere Replication 8.4.0.6 Express Patch provides bug fixes.

Installation and Upgrade

4

For the supported upgrade paths for vSphere Replication, select **Upgrade Path** and **VMware vSphere Replication** in the [VMware Product Interoperability Matrices](#).

You use the ISO file and the VRMS Appliance Management Interface to upgrade from vSphere Replication 8.2.x or 8.3.x to vSphere Replication 8.4.0.x.

If you are running vSphere Replication 8.4, upgrade to vSphere Replication 8.4.0.6. See [Upgrading vSphere Replication](#) in the *VMware vSphere Replication Administration 8.4* for instructions about upgrading vSphere Replication.

If you use vSphere Replication with Site Recovery Manager 8.4.0.x, upgrade the vSphere Replication appliance to version 8.4.0.6. See the [Site Recovery Manager 8.4.0.6 Release Notes](#) for information about Site Recovery Manager 8.4.0.6.

Note: If you are upgrading from vSphere Replication 8.2.x or 8.3.x, you must configure a password for the admin account. See Step 12 of the procedure in [Upgrade vSphere Replication Appliance](#).

Resolved Issues

5

- **NEW After deploying the vSphere Replication appliance by using an OVF template, all the network information is missing**

When you power on the vSphere Replication appliance after deploying it by using an OVF template, all the network information is missing and you receive a 'NO NETWORKING DETECTED' error.

This issue is resolved in vSphere Replication 8.4.0.6

- **NEW The vSphere Replication appliance runs out of space on the heap dump partition**

When you execute a Site Recovery Manager test failover, the vSphere Replication appliance runs out of space on the heap dump partition.

This issue is resolved in vSphere Replication 8.4.0.6.
